PROFESSIONAL EXPERIENCE

Technical Support Engineer 2, AVEVA, Scottsdale, AZ December 2025 – Present

- Provide technical support for enterprise AVEVA PI System environments including system architecture, administration, and integration troubleshooting.
- Diagnose failures across industrial data ingestion pipelines, historian infrastructure, and real time systems.
- Assist customers with PI Installations, upgrades, and migrations.
- Analyze time series data behavior to identify anomalies and integration failures.
- Investigate PI Connector, Adapter, and Interface communication issues.
- Analyze customer architecture to identify data flow bottlenecks, performance degradation, and configuration issues.
- Collaborate with engineering teams to resolve software defects affecting industrial data workflows.
- Document technical solutions and architecture recommendations.

Technical Support Engineer 1, AVEVA, Scottsdale, AZ August 2023 – December 2025

- Resolved complex technical cases involving industrial data systems.
- Assisted customers integrating PI data into enterprise applications.
- Investigated performance issues affecting large-scale data environments.
- Partnered with product engineering to escalate and resolve platform defects.

Technical Support Engineer Intern, AVEVA, Scottsdale, AZ May 2023 – August 2023

- Led internal automation project saving 85+ engineering hours.
- Learned PI System architecture including PI Data Archive, Asset Framework, and PI Interfaces.
- Partnered with engineering and product teams on process improvements.

Sales Development Representative, Adobe, Phoenix, AZ April 2021 – January 2022

- Engaged enterprise technical stakeholders regarding cloud migrations.
- Partnered with account executives on solution opportunities.
- Communicated technical value propositions to business leaders.
- Generated \$1M in qualified pipeline opportunities.

Member Service Representative, USAA, Phoenix, AZ February 2020 – December 2020

- Improved new account offering by 150% from April to December.
- Provided best practice presentations in team meetings.
- Focused on deepening member relationships with applicable products/services.

General Sales Manager Youfit Health Clubs, Phoenix, AZ May 2018 – August 2019

- Managed a staff of up to 30 in 3 different locations statewide.
- Grew club monthly revenue by 64% from 2018 to 2019.
- Achieved 140% of club membership goal for February 2019.

SKILLS & ACTIVITIES

Programming Languages: C#, JavaScript, Java, SQL, Python (foundational knowledge)

Industrial Data Technologies: AVEVA PI System, PI Asset Framework (AF), PI Web API, PI Vision, PI Data Archive, PI Connectors, PI Adapters, PI Connectors, Industrial Time-Series Data, Data Integration Troubleshooting, OPC (DA/UA), Modbus, DNP3

Backend & Software Development: ASP.NET Core, REST API Development, JSON Data Modeling, API Integrations, Software Debugging

Tools & Technologies: Git, Postman, SQL Server, PowerShell, Wireshark Data Analysis, Salesforce

Core Competencies: Technical Troubleshooting, Solution Engineering, Customer-Facing Technical Support, Enterprise Software Support, Data Architecture Investigation, Technical Documentation

TECHNICAL PROJECTS

Movie Review API – ASP.NET Core

- Developed REST API integrating third party movie and streaming availability data.
- Implemented backend logic for data aggregation and transformation.
- Designed scalable endpoint structure following REST best practices.
- Demonstrated API integration and backend engineering capabilities.

Interactive Drawing Web Application

- Built JavaScript web application allowing users to draw with selectable color palettes.
- Implemented event-driven UI logic and state management.
- Demonstrated front-end development and user interaction design.

Industrial Data Integration Learning Projects (Ongoing)

- Developing additional projects focused on API integrations and data processing specifically utilizing PI Web API and other PI System technologies.
- Expanding Python skills for data analysis and automation use cases.
- Studying applied AI concepts including LLM integrations and Retrieval Augmented Generation (RAG).

EDUCATION

W. P. Carey School of Business, Arizona State University, Tempe, AZ August 2023 Bachelor of Science, Computer Information Systems
